Industrial Zoning

Section 220

I-1: LIGHT INDUSTRIAL ZONE

220.A. PURPOSE

This Zone provides for a wide range of industrial activities that contribute to the well-being of the Township by diversifying its economy and providing valuable employment opportunities. The required lot sizes have been kept small to accommodate the start-up industries that are likely to emerge; however, larger and heavier industries have also been permitted. This Zone provides for light industrial uses as permitted by right, but requires obtainment of a conditional use for heavier and potentially more-objectionable types of industrial uses. These areas have been located near existing public utility service areas and along major roads. Design standards have been imposed to create attractive site designs and moderate the objectionable impacts associated with industrial uses. Substantial setbacks are used to protect adjoining residences. Finally, specified large-scale industrial uses are required to incorporate multi-story building and off-street parking to make more efficient use of these valuable industrially-zoned lands and reduce sprawl.
